early 2020)**

Community Survey and Engagement

“Please pave my street, Parkview Court, it’s in bad shape and needs to be paved.”

Ann C.

“San Bruno has aging infrastructure (like elsewhere in the region). We need to invest in a robust CIP to keep ahead of failures in sewers, streets and water. Keep focused on fundamentals.”

Anonymous

“I fell twice by ‘gives address’—on the street, pls fix.”

Grace L.

“police patrols especially during the summer months! Break ins go up during those months.”

Keith A.

“deferred maintenance can become a very costly financial situation later on. Not smart.”

Noel R.

Additional Funding Efforts

Highlights from 2019

SAN BRUNO
CityNet Services

"Provide advanced internet connectivity to enable internet-based services, television and wired phone access."

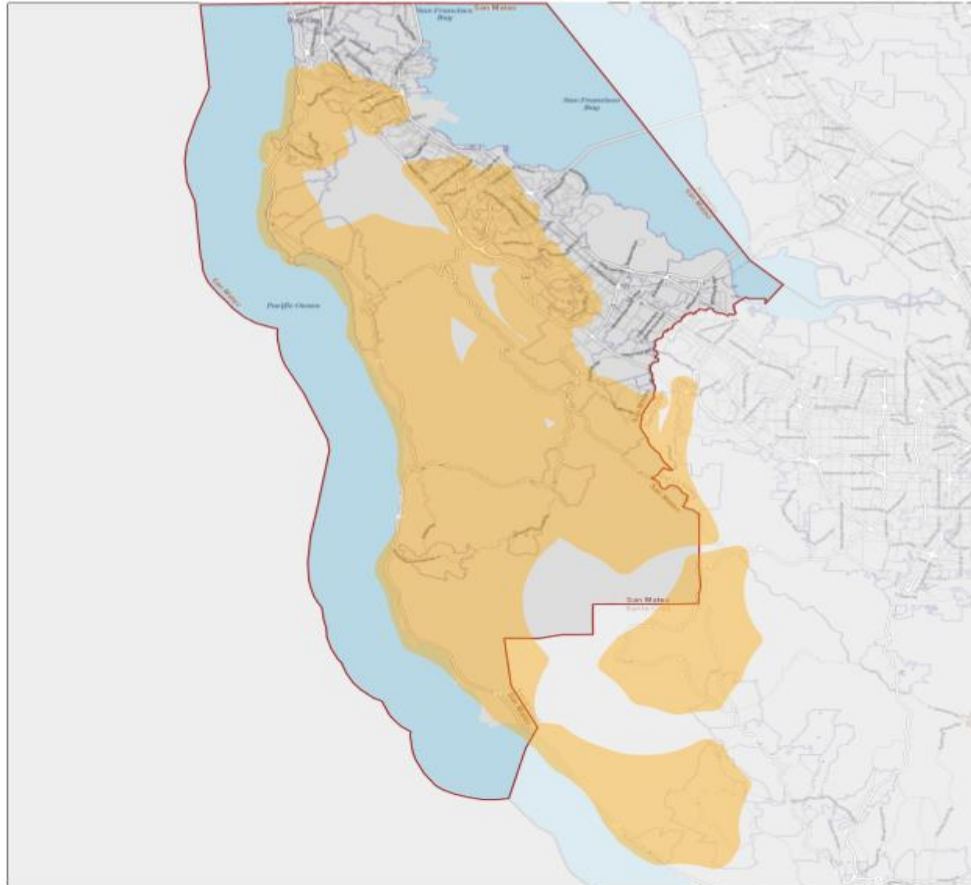

- **City Department and Enterprise since 1971**

 - **Provides internet and phone services to our First Responders, City Hall and all Departments**
 - **Business case made for 100% technology upgrade to fiber**
 - **Established reputation for friendly, local customer service**
-

Emergency Preparedness

Oct 2019 Power Safety Shut-Off

San Mateo County
PSPS_10-26-19_C-01_BaseLine_PUBLIC

Last Updated
October 24, 2019
02:32 PM

The information in this map is intended only to provide customers with a general estimate regarding potential locations that may be impacted by a PSPS event should one become necessary. Conditions affecting a possible PSPS event can change quickly and the actual impact of a future PSPS event is uncertain.

Shutting Off Power for Safety

As a safety precaution, San Diego Gas & Electric (SDG&E), Southern California Edison (SCE) and Pacific Gas and Electric (PG&E) monitor local fire danger and extreme weather conditions across California and evaluate whether to turn off electric power. The decision and action to turn off power is made by each individual energy company and is based on a combination of factors. **Factors include, but are not limited to:**

HIGH WINDS
(including Red Flag warnings)

LOW HUMIDITY

DRY VEGETATION
that could serve as fuel

FIRE THREAT
to electric infrastructure

ON-THE-GROUND OBSERVATIONS

PUBLIC SAFETY RISK

STAY SAFE. TAKE ACTION.

CREATE YOUR EMERGENCY PLAN TODAY BY FOLLOWING THE TIPS LISTED BELOW:

- **Update your contact information** with your local energy company
- **Identify backup charging methods** for phones and keep hard copies of emergency numbers
- **Plan for any medical needs** like medications that need to be refrigerated or devices that require power
- **Plan for the needs of pets and livestock**
- **Build or restock your emergency kit** with flashlights, fresh batteries, first aid supplies and cash
- **Designate an emergency meeting location**
- **Know how to manually open your garage door**
- **Ensure any backup generators are ready to safely operate**
- **Identify the unique needs of your family and loved ones in the area for your emergency plan**

Additional information on creating an emergency plan is also available at prepareforpowerdown.com.
